

## EXPLORE THE WORLD

Materials needed: map of the world or globe of the world, sticker stars, ruler and pens.

Using a map of the world or globe of the world, find the places that William and his grandpa visited. Once you find them, mark them with a star.

Join up the stars with a line or string and work out the answer to this question from the story:

Did William and his grandpa travel clockwise or anticlockwise around the world?
