

TRAVEL MODES

Materials needed: paper, pens, books and internet

William and his grandpa used lots of different modes of transport to get to the places that they visited in the story.

Make a list of all the ways they travelled to get to places. e.g. by plane, by train etc

What other modes of transport could you use to travel to places?

What might some unusual modes of transport be to get somewhere?

Which one would you like to travel on and why?
